## Certificate of Quality for CON-TROL-CURE Dyne Pens and Liquid Dyne Test Solutions

*Part #: (N001-002, N001-010, N001-011)*

The dyne pens and liquid dyne test solutions in 100cc bottles verify the surface energy of a PE and PP substrate. They also work on most other non-soluble plastic and metal substrates.

All dyne test pens and liquid solutions are manufactured in accordance to ASTM D 2578 (American Society For Testing And Materials Designation D 2578-84).

They contain Ethyl Cellosolve and Formamide. Concentrations and percentages vary based on specific dyne level. Blue or red dye may be added. Ethyl Cellosolve is a registered trademark of Union Carbide Corporation for 2-ethoxyethanol (ethylene glycol monoethyl ether).
