

ERGO-PAK SHIPPER AND OVERPACK BOXES

Ergo-Pak Overpack Box with Insert

The ERGO-PAK™ Pail Shipping System is perfect for shipping steel or plastic pails without the \$5 UPS “Additional Handling Charge” for unboxed pails. The package is specially designed for all 5 gallon pails. The ERGO-PAK™ Shipper is for non-UN materials while the ERGO-PAK™ Overpack is for all UN materials. The special ERGO-PAK™ Insert is used to keep tight-head pails snug and avoid excess movement during shipping. Ergonomically positioned hand holes are located on the sides for easy lifting and handling. This packaging exceeds UPS requirements and protects pails from damage.

FEATURES:

- Save over \$2/shipping! Eliminate the \$5 UPS “Additional Handling Charge”
- Ergonomically positioned hand holes for easy lifting
- For all 5 gallon steel and plastic pails

J001-040	ERGO-PAK SHIPPER BOX
J001-041	ERGO-PAK OVERPACK BOX
J001-042	ERGO-PAK INSERT

Designed to work with:

CONTAINERS WITH SNAP ON LIDS

Containers with Snap-On Lids

Special storage containers are required to protect your UV-curable ink and coating inventory from ambient UV light sources (sunlight, fluorescent lights). These high density snap-on lid containers filter ambient UV light. Polyethylene construction “breathes,” allowing oxygen contact with UV contents to inhibit polymerization. These combined features increase shelf stability and protect your investment. Designed for high impact resistance. Sold individually, in small packs or by the case. 5 gallon size designed to work with Ergo Shipper and Overpack Boxes listed above, other sizes also available.
