## SCARAB™ 400

### UV-A Shop Lamp System

**Tremendous component quality, engineering and value**

The durable 400-W lamp produces ultra powerful UVA light intensity

The Scarab™ 400, the 400W UV-A Shop Lamp System, is a compact, durable and lightweight lamp system producing ultra powerful UV-A light over a large illumination area. Designed to be easy to use and virtually maintenance free, this lamp is ideal for the shop environment with users who have minimal training.

The aluminum lamp housing provides durability while allowing for a very lightweight unit. It is simple to operate and can be used either hand held or stand mounted.

The Scarab™ 400 has been designed to offer maximum efficiency at a minimal price point. Compare for yourself with similar systems and see the difference CON-TROL-CURE offers.

#### FEATURES:

- Aluminium reflector
- Blue filter glass transmits only UVA and bluelight wavelengths from 320 nm to 450 nm
- Fan-cooled; maintains low temperatures
- Car cigarette lighter adaptor available
- Power supply is wheel mounted

#### BENEFITS:

- Produces uniform UV light distribution
- Allows users to operate safely with only the basic safety items: gloves, glasses and disposable aprons
- Rapid cool down period between uses increases efficiency
- Unit is portable and can be used outside of shop, at customer site
- Easy to maneuver to desired space
