UV PROCESS SUPPLY UNVEILS ITS NEWLY DESIGNED WEBSITE

CHICAGO, August 22, 2005 – UV Process Supply, Inc. has premiered their newly designed website at www.uvprocess.com. Responding to customer input and feedback, the recently launched site greatly improves the user experience, enabling faster, simplified product searches and expedited online ordering.

The architecture of the completely reformatted site was overhauled to improve speed and accuracy. Utilizing dynamically generated web pages, frequently updated product specifications and pricing adjustments are made automatically. This step forward will improve responsiveness to market adjustments and new product additions. The added functionality will result in new products being added regularly and in large numbers.

Additional improvements include a more sophisticated purchasing experience including the establishment of user accounts and order tracking. The search function has been greatly expanded, offering thumbnail images and links to each product, simplifying navigation of their thousands of products.

Since 1979, UV Process Supply has provided goods and services for the UV curing market. These products reinforce UV Process Supply's position as *the complete source for all your UV curing needs.*

For more information on the new website, contact UV Process Supply at their toll-free number 800-621-1296 or 773-248-0099. UV Process Supply is also accessible via fax at 800-99FAXUV or 773-880-6647, via email at info@uvps.com, or via their website at www.uvprocess.com.
