

AUTO-DRAW™ III

The Economical, Automatic Laboratory Drawdown Machine!

AUTO-DRAW III is a motorized drawdown machine that is affordable for even the smallest coatings laboratory. It was designed to eliminate human variables and to create laboratory precision samples. This simple instrument is the latest addition to our line of drawdown sampling devices and allows the scientist to produce accurate, repeatable drawdowns time after time... at an economical price!

Features:

- Eliminates all human variables - speed, direction and rod pressure.
- Easy one-switch control knob
- Uses Accu-Lab Jr. rods
- Compact - requires only 11 x 22" of bench-top space.
