

CON-TROL-CURE®

SCARAB™ 400

UV Hand Held Shop Lamp System Tremendous component quality, engineering and value

The Scarab™ 400, the 400W UV Shop Lamp System, is a compact, durable and lightweight lamp system producing ultra powerful UV light over a large illumination area. Designed to be easy to use and virtually maintenance free, this lamp is ideal for the shop environment with users who have minimal training.

The aluminum lamp housing provides durability while allowing for a very lightweight unit. It is simple to operate and can be used either hand held as or you can mount onto any fixture desired.

The Scarab™ 400 has been designed to offer maximum efficiency at a minimal price point. Compare for yourself with similar systems and see the difference CON-TROL-CURE offers.

FEATURES:

- Aluminium reflector
- Fan-cooled; maintains low temperatures
- Power supply is wheel mounted

BENEFITS:

- Produces uniform UV light distribution
- Allows users to operate safely with only the basic safety items: gloves, glasses and disposable aprons
- Rapid cool down period between uses increases efficiency
- Unit is portable and can be used outside of shop, at customer site
- Easy to maneuver to desired space
