

96" & 120" Diamond Kutronic

SPECIFICATIONS :

Sharpening length : 96" (244cm) or 120" (305cm)

Sharpening Profile : square/straight-edge head supplied standard (other profiles available)

Grit size : 100 and 360 grit supplied standard (60 and 600 grit available)

Material Removal : Recommended rate 0.002 - 0.005" (0.05 - 0.10mm);Grit dependant

Blade Height Tolerance : +/-0.006" (0.15mm) measured from end to end.

Edge Straightness : Adjustable from -0.050" to +0.050" camber (-1.22mm to +1.22mm camber) at full length (Note: for best performance all Diamond-Kutronics are factory set at +0.050" camber).

Power Requirement : 115-120V AC 15 Amp (220-230V AC 10 Amp optional)

Physical Size (uncrated):

- 96" Model : length 122" (3.10m), height 62" (1.57m), Width 27" (0.70m)
- 120" Model : length 146" (3.70m), height 62" (1.57m), Width 27" (0.70m)

The high-quality fully-automated sharpener for long squeegees with two models to sharpen 96" (244cm) and 120" (305cm) squeegees. Uniform sharpening speed, grinding pressure and material removal ensure superior quality control.

CE Approved

FEATURES INCUDE :

- Sharpen all squeegee materials* including single and multiple durometer.
- Special squeegee-clamping mechanism accomodates all holder profiles without bending or flexing the blade during sharpening.
- Unique vertical lift assures consistent parallelism between head and blade.
- Includes 2 indestructible diamond cutting wheels with a 5-year warranty on diamond delamination.
- Fully enclosed sharpening wheel for maximum safety during use.
- Optional Vacuum System for squeegee residue removal.
- Selection of optional grit sizes and profiles including custom-designed diamond wheels.
