

TRUPOINT DOCTOR BLADES

The Perfect Doctor Blade For Flexo Printing

TRUPOINT DURAPPOINT™ DOCTOR BLADE

TruPoint DuraPoint™ is engineered for printers who want the characteristics of a UHMW™ product combined with longer blade life. Designed for applications that previously used our standard UHMW™ product, but now want a blade that lasts even longer. A proprietary formulation gives DuraPoint™ a unique color and increases the blade life by 25% to 30% over standard UHMW™. This product provides good metering of the anilox roller, has tremendous blade life, and is very safe to use.

APPLICATIONS:

- Envelope
- Corrugated
- Coating

STANDARD PROFILES:

- (A) Straight
- (B) Bevel: 45°, 30°, 22.5°

STANDARD WIDTHS:

0.500" to 4.000"

STANDARD LENGTHS:

- Rolls: 100'
- Cut to length

STANDARD THICKNESSES:

- 0.030"
- 0.040"
- 0.050"
- 0.063"
- 0.080"
- 0.090"
- 0.100"
- 0.125"

TRUPOINT DURAPPOINT™ DOCTOR BLADE

TRUPOINT ONYX™ DOCTOR BLADE

TruPoint Onyx™ is engineered to achieve maximum blade life in the most demanding graphic applications where complex screens or process printing are required. This product is ideal for high-end printing and coating applications commonly seen in the wide web flexible packaging, tag & label, and offset coating markets. Customers currently report success using this material on graphics requiring 150 line plates and 800 line anilox rolls.

APPLICATIONS:

- Flexible Packaging
- Labels
- Folding Carton
- Envelope
- Corrugated
- Coating

STANDARD PROFILES:

- (A) Straight
- (B) Bevel: 45°, 30°, 22.5°, 15°

STANDARD THICKNESSES:

- 0.025"
- 0.030"
- 0.040"

STANDARD WIDTHS:

0.500" to 2.500"

STANDARD LENGTHS:

- Rolls: 100'
- Cut to length

TRUPOINT DOCTOR BLADES

TRUPOINT PLASTEEL™ DOCTOR BLADE

TruPoint Plasteel™ is ideal for moderate graphics including fine type, reverses, and simple screen work. The product has an excellent blade life in applications where graphic requirements are moderately difficult. TruPoint Plasteel™ is ideal for complex line work, screens and simple process graphics. The blade is very safe to use and is popular in corrugated, envelope, packaging and coating applications with moderate graphic requirements.

APPLICATIONS:

- Flexible Packaging
- Labels
- Folding Carton
- Envelope
- Corrugated
- Coating

STANDARD PROFILES:

- (A) Straight
- (B) Bevel: 45°, 30°, 22.5°, 15°

STANDARD WIDTHS:

- 0.500" to 3.500"

STANDARD LENGTHS:

- Rolls: 100', 250', 500'
- Cut to length

STANDARD THICKNESSES:

- 0.020"
- 0.030"
- 0.040"
- 0.050"

TRUPOINT PLASTEEL™ DOCTOR BLADE

TRUPOINT UHMW™ DOCTOR BLADE

A standard among corrugated printers, TruPoint UHMW™ is engineered for applications where consistent metering and maximum blade life are critical. This product has dominated the corrugated market segment for over a decade because it provides good metering of the anilox roller, lasts for weeks, and is very safe to use.

APPLICATIONS:

- Corrugated
- Envelope
- Flexible Packaging
- Folding Carton
- Coating

STANDARD THICKNESSES:

- 0.020"
- 0.030"
- 0.040"
- 0.050"
- 0.060"
- 0.070"
- 0.080"
- 0.090"
- 0.100"
- 0.125"

STANDARD WIDTHS:

- 0.500" to 4.000"

STANDARD LENGTHS:

- Rolls: 100'
- Cut to length

STANDARD PROFILES:

- (A) Straight
- (B) Bevel: 45°, 30°, 22.5°
- (C) DACC
